Resources for All

By: Sara Alexander
Honors Project Fall
2023-2024
Purpose

● Thousands around the world struggle when it comes to everyday whether it is putting food on the table to paying bills.

● Mental health, health care, transportation, education, food, shelter, etc. are all basic necessities that everyone needs to have a successful life.

● Providing services to those in need is key to help them have a happier life.
While working this job I was informed by many clients the need in resources with a lack of communication and aid.

- I recently obtained a job as a behavioral health technician. My role is to go into homes, schools, juvenile detention centers, etc. to work with 3-18 year old on their emotions, feelings, etc.

- I decided to try to advocate for my clients.
Process

- I was informed by many clients on their struggle with transportation, food, education, etc.
  - I have been working with a variety of food banks to provide food services/boxes to the clients of my company.
- I wanted to help get my clients the resources they have been advocating for
  - I reached out to a variety of resources for my company to work with
    - St. Mary’s Food Bank, Families in Need, Matthew’s Crossing Food Bank, etc.
Outreach
What and Why?

**What:**
- Resources are basic benefits that are needed to have a Happier life.
  - Food, education, mental Health, transportation, and more.
- Offering food boxes to clients in need
- I partnered with/communicated with a variety of resources to aid client’s in transportation, health, food, education, and more.

**Why:**
- Thousands of families worry day to day about food to paying bills
- Reached out to local food banks to advocate for those clients that were in need
- Having to go everyday worrying about the basics calls for:
  - Excess stress
  - Decreased mental health well-being
  - Cutting cost
After Plan

- I plan to continue to remain in contact with my company on working with local food banks to offer boxes/aid to clients in need
- I plan to continue to communicate with my clients on resources for all (if able)
- I plan to research a variety of resources to try to get my company to work
  - allowing for aid from transportation to Food boxes
