My Growth As a Tutor

Jose Alexis Garcia Miranda
South Mountain Community College

Who Am I?

- Hello, I am Jose Garcia! I have been an embedded tutor for since the Fall Semester of 2022 up until now! I am currently pursuing a degree in Computer Science (Software Engineering).

- I became a Peer Math Tutor to empower my peers to become confident and successful math learners, and to help them take pride in their achievements.

Tutoring Experience

- MAT 115: College Algebra Prep
- MAT 151 College Algebra/Functions

Techniques/Strategies I Have Used

- Write down problem and find what we are given
- See what makes this math problem different from others.
- Look back to notes
- Formula Sheets
- Ask the Instructor

Personal Growth and Future Thoughts

- This semester, I improved my ability to empathize with students and understanding their struggles with math. I learned to identify the most effective tutoring styles for students and to communicate explanations more clearly

- In the future, I aim to enhance my communication skills by continually refining my explanations and reflecting on each tutoring session to improve my abilities
